PROJECTS

Cafe Clicker

🔗 <https://github.com/NickLThompson/cafe-clicker>

Browser clicking game created to show off all of our newly developed technical skills

Book Nook

🔗 <https://github.com/NickLThompson/book-nook>

Digital home library designed to keep track of your books and leave reviews

2D Java Game

🔗 <https://github.com/NickLThompson/My2DGame>

Small 2D game created only using Java while following a tutorial and listing steps along the way.

EXPERIENCE

Laser Machine Operator

Kewaunee Scientific

📅 10/2021 - 05/2022 📍 Statesville, North Carolina

- Read blueprints carefully in order to load the correct material while using metal gauges and digital calipers for quality checks
- Programmed each blueprint and input the information into our data system, making changes where necessary
- Scrapped flawed pieces of metal and documenting each occurrence. Processed metal was sorted onto pallets

Automotive Technician

Firestone Complete Auto Care

📅 03/2021 - 10/2021 📍 Lenoir, North Carolina

- Completed regular maintenance on all types of vehicles and their parts such as engine tune-ups, oil changes, tire rotations, wheel balancing and filter replacements.
- Maintained accurate records of time and materials required to perform repairs and services. Troubleshoot and diagnosed faults with vehicle systems and components using OEM-specific code readers, diagnostic trees and online knowledge bases.
